

Submitter: Clair Klock
On Behalf Of:
Committee: House Committee On Rules
Measure: HB4026

Senator Fahey and members of the committee,
I'm Clair Klock from Corbett, OR and urge your opposition to -1 of HB4026. This is nothing short of a attempt to stifle or eliminate full public participation in decisions that effect the livability of their communities. It is just another attempt by special interest to line their own pocket at the expense of future generations. Please don't let this occur.
Thank you for your work
