

Submitter: Mindy Pesicek  
On Behalf Of:  
Committee: House Committee On Education  
Measure: HB2895

I am a special education teacher working in a district that is not able to adequately meet the legal needs of our special education students due to lack of funding. This bill is desperately needed to support students with disabilities that are disproportionately under-served. Please vote in favor of removing the cap on special education funding so all students have access to a free and appropriate education.
