

Submitter: Judith Tebbs  
On Behalf Of:  
Committee: Joint Committee On Semiconductors  
Measure: SB4

I support the section of SB 4 for funds to educate folks for employment in the semiconductor industry.

I also urge consideration of an available 13 acre site at 12350 N. E Sandy Blvd. Portland as the location of a training facility. I oppose changing the present urban growth boundary in order to site this facility.

The location mentioned earlier is within the Parkrose School District which serves a diverse population and an area which would greatly benefit from such an educational facility.

Thank you for considering my testimony.

J. Tebbs
