Measure, Appointment or Topic: HB2422
I strongly oppose HB 2422

Do legislatures get together now and try to find the worst and quickest ways to ruin Oregon the fastest? Is the plan to run Oregonians wells dry and drive them out of Oregon? Offering up more ways of making housing unaffordable while making it harder for wildlife to survive? WELL THIS IT!!!!

Why not focus on expanding low income housing close to services inside existing UGB's rather than undermining our land use system for the benefit of the wealthy and non Oregonians? Oregonians really don't want to see their beautiful rural areas turned into sprawling suburban wastelands.

There is also a high probability when accounting for future population growth in fire prone areas, that there is an overestimate as people choose other areas with less risk for fires and their ability to get home insurance.

Please oppose this disastrous bill!!!!
