Measure, Appointment or Topic: HB4113

HB 4113 represents a fair resolution of a long-standing issue stemming from the 2009 Metolius legislation.

When the State established the Area of Critical State Concern, a substitute development opportunity was created to compensate affected property owners. That substitute mechanism proved economically unworkable.

HB 4113 modernizes that framework by tying it to workforce housing while securing permanent conservation of the Metolius parcel.

This is about integrity, conservation, and housing — not weakening land use protections. Please work to solve this for the benefit of all Oregonians.

Please support HB 4113.
